The House of Jeffrey Keaton and Needles and Smiles: The Lost Tapes, Two Messes for the Timeline

Source:https://www.reddit.com/r/Iconpasta/comments/11hhyg2/needles_and_smiles_the_lost_tapes_poster/

Oh boy! Where do we begin? The House of Jeff The Killer is even like putting it on the Timeline but Lost Tapes? There is no way to fit him into a Timeline! Everything indicates that in Go To Sleep (The True Story Of Jeff The Killer), The House of Jeff

The Killer and The Blood of Jeff The Killer, Jeff is 17 years old or his birthday is coming up to be 18 because he is threatened with arrest after stabbing Chris, soon after that he goes to Ferguson Asylum and stays there for 6 months, causing him to escape, on December 25, 2014, his birthday is in March, meaning he would be 18. This is where we get into the problem with The House of Jeff The Killer. Only in The House of Jeff The Killer, Jeff's grave shows it being March 9, 1992 to December 25, 2014 (Jeff would be 22 years old in JEFFERY'S DEAD), it doesn't help that in a flashback at the beginning of The House of Jeff The Killer, Jeff says it's been 6 years and he is said to have killed his mother and burned down her house at 17, since Needles and Smiles and JEFFREY'S DEAD and The House of Jeff The Killer and in The Blood of Jeff The Killer, they again recap the events and Jeffrey is described as a teenager (also some parts of The House of Jeff The Killer exist). The Blood of Jeff The Killer is said by Toby and others that 2 years have passed since Jeff's death, he doesn't know that Jeff was revived by Zalgo when she says this, Doctor England also said in The Blood of Jeffrey Keaton that he was found one last time by the sewers (you know? The end of The House of Jeff The Killer takes place in the sewers), it doesn't help at all as the opening intro of The Wrath of Jeffrey Keaton shows the events of Needles and Smiles, JEFFREY'S DEAD and The Blood of Jeffrey Keaton but not The House of Jeff The Killer but in Jeff The Killer vs Jigsaw (which is not Canon but oh well), it is said that the events of The House of Jeff The Killer occurred. The worst part is that The House of Jeff The Killer is said to be part of the series, but it is standalone, but it gives us important information.

Now about Needles and Smiles: Lost Tapes... There's no way to fit this with the original Needles and Smiles, there are so many changes in the relationships between characters and stuff like that. Mainly characters like Christopher Ferguson, As in Needles and Smiles, he's a bad person, a rapist who eats fetuses, and within the first week that Jeff arrives at Ferguson Asylum, he receives shock therapy. While in Lost Tapes, he takes months to stay like this and become the Wolf. I even theorized that the original Needles and Smiles is some kind of twisted mind version of Jeff, but the one who narrates the story is not Jeff but the classic omniscient narrator... I just imagine that Lost Tapes is a kind of reinterpretation of Needles and Smiles that doesn't fit into the canon

DIFFERENCES BETWEEN JTK SAGA AND NEEDLES AND SMILES:

—Eyeless Jack and Jane are not related to Jeff in the JTK Saga

—Jeff's origin story in JTK seems to be closer to the origin story of Travis' version, including him killing David while in Needles and Smiles he didn't and the origin story is different (imagine it as a Rob Zombie version of Jeff The Killer [this is not a compliment])

—Slenderman in the JTK Saga is the main antagonist and not Jeff and/or Zalgo

—Slenderman in the JTK Saga is an Alien from another dimension, while in Needles and Smiles, he is an Entity said to be older than time

Although the video is currently Lost Media, I found a Respect Thread for this specific Saga, so I'll trust it for now

Impaled two girls on trees (Strength)
Moved faster than Jeff could see (Speed)

JEFF THE KILLER AND SLENDERMAN

It can probably tear people's limbs off

Note:Don't argue that Slender Man > Zalgo or something like that, because Sinister Man said that his species is superior to Zalgo's, because it's pretty obvious that he's speaking arrogantly…

THE DEATH OF SLENDER MAN

Summons a purple tornado (And yes, I checked, it really is a tornado and It appears to be the same chroma key as Tornado) (2.1793 tons of TNT, **Large Building** to **City-Block**)

Can cut up the bodies of his victims to remove their kidneys

THE DEATH OF SLENDER MAN

Kill Sinister Man in one-hit

SMILE DOG/Zalgo

Jane

JEFF THE KILLER AND EYELESS JACK

It is said by Jack that she is a threat to Jeff

It is said to be a threat by Zalgo

Animatronics

They are made of metal and similar things (Or some of them are made of metal because they can feel hungry, apparently bleed and even get people pregnant)
All Animatronics can push people in animatronic suits hard enough to break their skulls and pop their eyes out

Freddy survives a stab to the head

Five Nights at Freddy's Foxy Pirate Voice Test

The Wrath of Jeffery Keaton - Chapter 1

Said to be more powerful than human weaponry

Note: If you're crazy you could kind of argue that he meant he's stronger than every kind of weapon humanity has (Tsar Bomb)

The Wendigo Form

The Wrath of Jeffery Keaton - Chapter 2

Note:I genuinely find it hard to know what's going on due to there not being much narration in The Wrath of Jeffery Keaton, so maybe some parts are not right

WEAKNESS (JEFFERY KEATON SAGA)

General

He hears countless voices in his head, they only stop talking when he kills

Take into account that for Jeff to reach Wendigo form or become Zalgo's Vessel, rituals are necessary and it requires at least one more person besides Jeff to perform the ritual, meaning outside help

To end the curse of the hood it is necessary to perform a ritual (outside help)

Post-Sedatives

Its regeneration may take a while depending on the wound and how many there are

Angel of Sleep

Technically it is still a dead corpse, meaning animals like cockroaches, crows, vultures and others, can still want it.

If Zalgo die temporarily in his vessel form, Jeff will begin to get weaker and slowly die

Merged with Zalgo

Only evil can hurt and kill them

POWER AND ABILITIES (JEFFERY KEATON SAGA)

Pre-Sedatives

*—**Skilled Hand-to-Hand Combatant** (Shown a few times in Jeff The Killer 2021)*
*—**Regeneration** (**Low**; can heal from third-degree burns all over the body in just one day) (Shown in Go To Sleep (The True Story Of Jeff The Killer))*
*—**Social Influence** (**Deception**; Pretend to be just someone mentally unstable and innocent, who knows nothing about what he did and makes people trust him even people warning that he is a compulsive liar, then deceive the person, hitting their weaknesses, emotional and personal points)*

Post-Sedatives

—Weapon Mastery
*—Regeneration (**Mid-Low**, **Higher** Over time; The regeneration prevented him from getting burned by The Rake's acid. It is said by Ferguson that the sedatives improve the regeneration and let them go at incredible speed. Can regenerate after to have his skull opened and stab wound to his heart through his chest, multiple shots around his body even if it takes a few minutes and the broken ribcage which also takes time to regenerate)*

*—Social Influence (**Deception**; Tricks Jane into believing he was innocent before attacking her)*
—Rage Power (After entering a state of rage, he tear off Mangle's jaw)
—Resistance to Acid Manipulation (Regenerates completely when acid is spat on his arm by The Rake)

Angel of Sleep

—Weapon Mastery
—Stealth Mastery
—Aura (Said by LJ to have an evil aura that ghosts can sense)
*—Social Influence (**Deception**: Manipulates Jane into believing that Toby doesn't trust her and that she was made to kill, although it didn't work in the end, it left Jane doubtful until at least The Wrath of Jeff The Killer)*
*—Immortality (**Type 2**, **3**, **7** and likely **8**; Apparently he will remain alive and strong if Zalgo remains alive, if Zalgo dies, Jeff will consequently become weaker and will slowly die)*
*—Regeneration (**Low-Mid**; Regenerates after having his neck broken by Slenderman. It regenerates until its body is eaten by cockroaches, including losing its eye, skin and jaw in the process)*
—Technology Manipulation (Caused glitches and interference in the audio tape. Causes interference with calls when nearby)
*—Telepathy, Dream and **Limited** Memory Manipulation (Can enter Jane's dreams, consequently he is told that he is in her braincase and makes her revisit the memory of her mother's death, meaning he can see Jane's memories. Enter the Jarvis family's dreams and Father Pleasense)*

In Dreams

Shapeshifting and Voice Mimicry (Can assume the form and voice of Jane's mother)

*—Curse Manipulation and Corruption (**Type 1**; Curse his hood, causing people who wear it to start acting like him and go insane)*
—Insect Manipulation (it caused a lot of cockroaches to infest the house [Since it is implied to be something supernatural numerous times], there were so many that they clogged the house's plumbing and fill the toilet. Although they want to eat him, but now they live inside him and he can use it to his advantage to chase a target when it is very far away. Appearing again in The Blood of Jeff The Killer when Little Smile is and in the Zalgo movie when Zalgo is in the house)
—Likely Explosion Manipulation (Exploded a building in an unknown manner, although it is said by a police officer that it was a bomb but he does not know about Jeff)
—Likely Afterimage Creation (Shown here [I don't know if I can consider it since MBK uses this filter a lot for other things])
—Likely Paralysis Inducement with Kandarian Magic (Must have the same magic as Reverend Ferguson, that when saying 'Gondor Melocanda' the opponent will not be able to move)

*—Fourth Wall Awareness (**Non-Canon**; Knows about the existence of the videos/audio dramas and can read the scripts)*
*—Drug Resistance (**Non-Canon**; Said he can't use drugs because he's dead)*
—Resistance to Fire Manipulation with his Hoodie and Curse Manipulation (After Doctor England sets fire to the hood with Jane, he says that the hood remained intact)

Merged with Zalgo

*—Multiple Selves (**Type 1** and **3**)*
—Bodily Weaponry (It has ram horns)
—Blood Physiology (It is made of black blood)
—Necromancy (Revive an army of the undead)
—Age Manipulation (After Doctor England faces Jeff/Zalgo, he begins to age more)
—Additional Limbs, Shapeshifting and Voice Mimicry (Creates an extra head on its own body and changes it to look like Jane's mother's and then another for Jeff)
—Invulnerability (Can only be harmed by evil beings and the weapons they are carrying)
—Likely other HAX from Zalgo (see The Profiles Section)

Wendigo Form

*—Large Size (**Type 0**)*
—Sound Manipulation (Capable of causing loud screams [2])

STAMINA

He threatens to break Ben's legs and rip off his head

Post-Death

Breaks a police officer's neck and was quicker than his reaction before he could shoot

Restricts Toby (in JEFFERY'S DEAD)

Throws Toby around and is explicitly shown to be stronger than him

Said by Toby to be surprisingly powerful and being able to kill him and Jane

Rips off the head of a Little Smile

Jack Keaton

Decapitated human parts in an unknown way

Defeat Jeff Angel of Sleep (**Weakened State**) with ease

Apparently can blow up a car with magic

Kill a SWAT officer in one shot with magic?

Throw a car with ease? And then he throws several other unknown objects with ease

Survive a magic ball, which must be comparable to his magic

He says his power is so great that that the gods cower before his strength (**Hyperbole**)

Animatronics

They are made of metal and similar materials

Caused the bite of 87

Chica

Threatens to rip Jeff's (**Post-Sedatives**) limbs off

Bites Jeff's (**Post-Sedatives**) shoulder hard enough to make him bleed

Freddy

Shoots Jeff (**Post-Sedatives**) multiple times to the point where he flies off the stage and onto a tabletop

Bonnie

Cracks open Jeff's (**Post-Sedatives**) skull by making him slam his head into a metal table and apparently breaks the metal table

***Note**: From the sounds of it, let's say that hypothetically he can break the metal table due to the same sound that Jeff makes when he breaks Bonnie's stomach with his head*

Mangle

Rips David's neck

Satan (Ask Satan, **Non-Canon**)

Kicks children hard enough to send them flying

Survives falling from heaven

Survives falling from the roof of a house

Other Characters

Characters that I decided not to put in a category for them because they don't appear much

Ben

Apparently can dodge gunshots (Normally the police officers' weapons are M1911 [253 m/s])

***Note**: I would say that only supernatural beings could scale (Jeff Angel of Sleep, Jane, Zalgo, LJ, etc.)*

David Keaton

Destroy Freddy with just his bare hands

Little Smiles

Can keep up while Jane and Toby are running

Yeah, literally that's all they have, otherwise they're just normal humans who keep fighting even after having their limbs ripped off

Jarvis Family

Jacob

Restrict Father Pleasense (even able to restrain him with just one hand)

Corey

Break Officer Mace's neck?

Supernatural Beings Small Building Level? Maybe, hear me out

Remember that feat mentioned earlier where Jeff Angel of Sleep survived a building explosion? So, I used to think this feat was an Outlier but... Looking at it now it doesn't seem like it is. Come on, at various points in the series it is made very explicit and obvious that supernatural beings > Mortals, noting directly that Jeff Angel of Sleep or other supernatural beings never suffered serious damage, only when they are fighting against themselves and when Jeff is more seriously damaged by Jane, Toby etc. just the cockroaches and more because they were eating it from the inside. The others only managed to hurt him when he is in a more weakened state.

However, take into consideration that this is the only entire Small Building Level feat in the series (not counting Zalgo's quotes about the end of the world and being stronger than the human weapon), then I can only consider High-Ball at most.
